

Please, please do not implement any proposal that would lessen Indiana's Telepone Privacy Law protections. My life used to be a nightmare with calls starting at 7:30am and going on until after 9:00pm. Call after call was one telemarketer after another. Forget sleep---forget naps---or any quiet time at all. It is so much better now. I bet we don't get more than two or three a week, and they are charities. Please don't send us backward!!! Thank you for listening. Sandra Faust
